M2010 SNIPER WEAPON SYSTEMS

Designed as an upgrade to the venerable M24 SWS, the M2010 comes configured with the Remington® Arms Chassis System (RACS). The M2010 gives the sniper greater capability, lethality and flexibility offered by the 300 Winchester Magnum round, a detachable box magazine, full rail systems for mounting of ancillary equipment and signature reduction in the form of an AAC 90T Ratchet mount.
